"Basic principles of tampon printing"

Tampon printing with the modern tampon printing machines of TAMPOPRINT® AG requires knowledge about the interplay of tampon printing ink, tampon printing cliché and the tampon in order to create the prerequisites for the very best printing results.

In our training courses you will receive a basic insight into the tampon printing process. The training we offer is designed for all persons working in the field of the tampon printing process such as operators or tool setters and users who are assigned the daily production as well as companies that are printing on demand.

After this training course you should be in the position to analyse the procedures and avoid mistakes. Your production will become more transparent and process-safe.

Theory and practice

The tampon printing training seminars at TAMPOPRINT® are designed for users and operators of tampon printing machines. During the two day training the participants are taught the basics of tampon printing, and they will learn the interrelationships which are necessary for the everyday printing process.

In addition, the theoretical contents are always accompanied by practice-related examples; printing processes are carried out independently by the participants. Because of the structured training course, individual topics as well as the interactions between the single components are easy to comprehend.

The knowledge acquired in this training will allow the user to create its own predictable processes and to systematise the production process.

2 Days "Basic principles ..."

1st day

9 a.m. - 12 p.m. / 1 p.m. - open end

Tampon printing; Tampon printing systems; Tampon printing cliché; Tampon; On-the-job training.

Theory : practice = 2:1

2nd day

9 a.m. - 12 p.m. / 1 p.m. - not later than 4 p.m

Tampon printing ink; Surface treatment; Tampon printing machine; On-the-job training.

Price:

390,00 Euro (per person)

Incl. writing utensils, documentation, lunch, coffee, tea, soft drinks

Number of participants:

4 persons minimum, 10 persons maximum

Basic principles of tampon printing 1st day

Tampon printing	Tampon printing systems	Tampon printing cliché	Tampon	Tampon printing ink	Surface treatment	Tampon printing machine	Application technology
Tampon printing compared with other decoration processes and classic printing processes.	Three basic tampon printing systems "open", "hermetic", "rotary"	Artwork production Cliché production Cliché types in use	How to select the correct tampon? Tampon quality/selection = printing result.	How do I select the correct tampon printing ink? Which categories are available?	Optimum pre- and after-treatments of workpiece surfaces. Optimising ink adhesion and ink delivery.	Standard, semi or fully automatic machine? Which optional equipments are offered?	FAQ for the operator. What is to do if ... Practical tests and valuations of prints.

Basic principles of tampon printing 2nd day

Individual tampon printing training course

We recommend an individual tampon printing training course if you have changed the operators of your TAMPOPRINT® tampon printing machine.

Contents of the "individual tampon printing training course"

The contents will be tailored to your needs.

The contents cover theory and on-the-job training in order to facilitate the regular operation of your TAMPOPRINT® tampon printing machine and to shorten the procedures.

Training location

TAMPOPRINT® AG, Lingwiesenstr. 1, 70825 Korntal-Münchingen, Germany

or on your premises.

Duration of the training

Individual

Number of participants

The maximum number of participants is limited to 6 persons.

Price

We will be happy to work out an offer for you.

Individual laser training course

The training is designed for users who intend to use an ALFALAS® laser system from TAMPOPRINT® AG or are already in possession of these systems.

Contents of the "individual laser training course"

The contents will be tailored to your needs.

Laser types and their application; ALFALAS® laser systems / automation possibilities; introduction to the ALFALAS® operator software TP_alfa®; or any other contents which will be agreed upon.

Training location

TAMPOPRINT® AG, Lingwiesenstr. 1, 70825 Korntal-Münchingen, Germany

or on your premises.

Duration of the training

Individual

Number of participants

The maximum number of participants is limited to 6 persons.

Price

We will be happy to work out an offer for you.

Registration / Arrival

Training location

TAMPOPRINT® AG, Lingwiesenstr. 1, 70825 Korntal-Münchingen, Germany

Arrival and accomodation

By car (parking space available)

Online directions:

http://www.tampoprint.de/en/anfahrt_en/anfahrt_en.html

Use of public transportation (train/bus) possible.

Detailed directions as well as a list with hotels will be sent to you with your confirmation of the course registration.

We cannot book the hotel rooms for you!

Registration to the training courses only in written form possible

Please use the fax response of your flyer.
