Training courses

- Basic principles of pad printing
- Individual pad printing training course
- Individual laser training course ALFALAS®

Basic principles of pad printing

Pad printing with the modern pad printing machines of TAMPOPRINT GmbH requires knowledge about the interplay of pad printing ink, pad printing cliché and the pad in order to create the prerequisites for the very best printing results.

In our training courses you will receive a basic insight into the pad printing process. The training we offer is designed for all persons working in the field of the pad printing process such as operators or tool setters and users who are assigned the daily production as well as companies that are printing on demand.

After this training course you should be in the position to analyse the procedures and avoid mistakes. Your production will become more transparent and process-safe.

Theory and practice

The pad printing training seminars at TAMPOPRINT are designed for users and operators of pad printing machines. During the two day training the participants are taught the basics of pad printing, and they will learn the interrelationships which are necessary for the everyday printing process.

In addition, the theoretical contents are always accompanied by practice-related examples; printing processes are carried out independently by the participants. Because of the structured training course, individual topics as well as the interactions between the single components are easy to comprehend.

The knowledge acquired in this training will allow the user to create its own predictable processes and to systematise the production process.

2 Days "Basic principles ..."

1st day

9 a.m. – 12 p.m. / 1 p.m. – open end

Pad printing; Pad printing systems; Pad printing cliché; Pad; On-the-job training.

Theory: practice = 2:1

2nd day

9 a.m. – 12 p.m. / 1 p.m. – not later than 4 p.m

Pad printing ink; Surface treatment; Pad printing machine; On-the-job training.

1st day: Basic principles of pad printing

Pad printing	Pad printing systems	Pad printing cliché	Pad	Pad printing ink	Surface treatment	Pad printing machine	Application technology
Pad printing compared with other decoration processes and classic printing processes.	Three basic pad printing systems "open", "hermetic", "rotary"	Artwork production Cliché production Cliché types in use	How to select the correct pad? Pad quality/selection = printing result.	How do I select the correct pad printing ink? Which categories are available?	Optimum pre- and aftertreatments of workpiece surfaces. Optimising ink adhesion and ink delivery.	Standard, semi or fully automatic machine? Which optional equipments are offered?	FAQ for the operator. What is to do if ... Practical tests and valuations of prints.

2nd day: Basic principles of pad printing

Individual pad printing training course

We recommend an individual pad printing training course if you have changed the operators of your TAMPOPRINT pad printing machine.

Contents of the "Individual pad printing training course"

The contents will be tailored to your needs.

The contents cover theory and on-the-job training in order to facilitate the regular operation of your TAMPOPRINT pad printing machine and to shorten the procedures.

Training location: TAMPOPRINT® GmbH, Lingwiesenstr. 1, 70825 Korntal-Münchingen, Germany or on your premises.

Duration of the training: Individual

Number of participants: The maximum number of participants is limited to 6 persons.

Price: We will be happy to work out an offer for you.

Individual laser training course

The training is designed for users who intend to use an ALFALAS laser system from TAMPOPRINT GmbH or are already in possession of these systems.

Contents of the "individual laser training course"

The contents will be tailored to your needs.

Laser types and their application; ALFALAS laser systems / automation possibilities; introduction to the operator software ALFALAS® Laser Suite; or any other contents which will be agreed upon.

Training location: TAMPOPRINT® GmbH, Lingwiesenstr. 1, 70825 Korntal-Münchingen, Germany or on your premises.

Duration of the training: Individual

Number of participants: The maximum number of participants is limited to 6 persons.

Price: We will be happy to work out an offer for you.
