TAMPOPRINT – Your system partner!

For the automotive industry we label, scale and decorate to the highest standard.

Our selection of machines ranges from stand-alone solutions for manual workplaces to multi-shift production lines. Around 200 components of an average automotive are already printed, coated or engraved with TAMPOPRINT technology.

Our system solutions offer you:
Flexibility and precision in decoration and laser labelling
Production of sharp-contoured, one to many coloured print images for arched, round or flat parts
Transfer of all sorts of technical media (e.g. primers, glues, lubricants)
Process monitoring with the most modern camera systems for the highest product safety

We guarantee our customers professional implementation from concept to 24h production. Highly qualified sales employees, project management, technology and pre and after sales service make this possible.

Technology, development and installation – “100 % Made in Germany”.
